

UNINTERRUPTIBLE POWER SUPPLY (UPS) FOR OBSERVER™ 4120

This uninterruptible power supply (UPS) is built for the Observer 4120 Hybrid Video Recorder (HVR). Voltage spikes and drops are leveled out to create a steady and clean electrical current to the HVR, protecting valuable storage devices from corruption in harsh mobile environments. In the event of complete power loss, the UPS allows the HVR to gracefully shut down, protecting recorded video and data integrity.

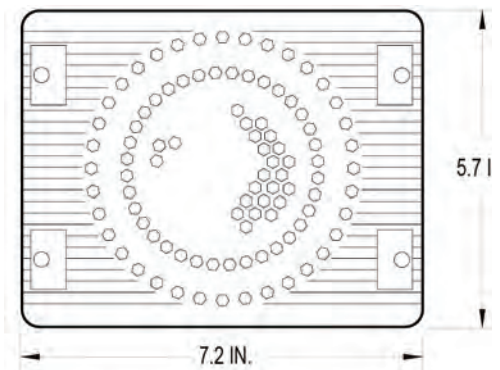

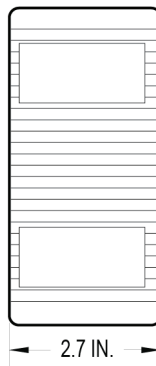

Features

- Specifically engineered for use with the Observer 4120 HVR
- Provides steady and clean power
- Easy flat-mount installation
- Simple wire connections to the HVR and optional Smart Switch
