FIRST RESPONDER SOLUTION BY SAFETY VISION

Safety Vision is an advanced mobile surveillance provider dedicated to enhancing transportation safety and security. For first responders, our goal is to enable you to maximize views and remain proactive on your route to and from the scene. Our HD cameras capture the total area surrounding your vehicle; allowing you to quickly and safely maneuver through the streets. When used in conjunction with our recorders, you have the ability to capture indisputable evidence to refute false claims and protect your drivers. Whether you install our standard system or add on our state-of-the-art accessories, our products are guaranteed to offer a comprehensive solution that is catered to your needs.

Advanced Features:

- ✓ Monitor Patient Interaction
- ✓ Minimize Risks
- ✓ Live Viewing Capabilities
- ✓ Reduce Reversing & Moving Accidents
- ✓ Cameo Capability Module
- ✓ Reduce Financial Threats
- ✓ Improve Safety & Performance
- ✓ Custom Tailored Solution
- ✓ Enhance Driver Vision

Index of Solutions

Improve Safety & Performance

- Recorded video recreates every interaction of the scene
- Useful training tool
- Refute fraudulent claims

Accident Prevention

- Minimize blind spots through visual enhancement
- Eliminate the need of spotters during backing maneuvers
- Supply drivers with a visual aid to navigate safely during emergency responses

With Safety Vision's Advanced Software Features you can...

- Playback every camera angle at once and zoom in on important details
- Blur out faces to protect the identity of crew members and civilians

- Live alerts of events
- Android & iOS Apps

WIRELESS DOWNLOADS:

- Save man hours & minimize operational error
- Proactive Health Reports
- Auto Download Events
- Remotely schedule video downloads
- Wirelessly update entire fleets firmware and configuration settings

Foresight PRO - Wireless Video Solution

Minimize operations with the use of our optional wireless downloading solution. Save time by automatically downloading video within your desired parameters: event-based, on-demand, or on a schedule.

How does it work?

- A wireless network is set up at the facility where the vehicles return and park overnight.
- Throughout the lot are access points which are configured to connect to a central server (where the software and downloaded video files will be housed).
- On each vehicle, the digital video recorder (DVR) is connected to a Wi-Fi radio that is interfaced with the access points located throughout the facility.
- When a vehicle returns to the facility and is in the wireless network range, the Wi-Fi radios on each vehicle automatically connect to the access points – directly transmitting any scheduled, automatic event-based, or end-user requested video content to wirelessly offload to the server.

Computers connected to the server and using the Foresight PRO client software, have the ability to quickly and easily search the video database based on selected criteria.

Another key benefit to wireless networking includes extensive e-mail reporting. Users can customize e-mail alerts for DVR health reports as well as alerts on operator events and critical alarms.

Key Industry Markets

MASS TRANSIT

The solutions for mass transit offer increased safety and heightened awareness for passengers and drivers. Our cameras and recorders work together to capture every angle in and around the vehicle for the entire route. Our suite of products are future-proof, user- and budget-friendly, and offer a variety of accessories to meet your needs.

FIRST RESPONDERS

With as much as First Responders do, Safety Vision is driven to alleviate the pressure of managing multiple surveillance systems. Our solutions are guaranteed to offer unified security, empower responders to be proactive in the chain of events that follow an alert, and provide full documentation of the transition to and from the scene.

STUDENT TRANSPORTATION

Increased student safety is a crucial motivator in developing solutions for student transportation. Our systems are built to solve a number of hardships faced in the industry including, enforcing stop-arm violation laws, heightened on-board security, and safely maneuvering the vehicle.

ON AND OFF HIGHWAY TRUCKS

Protecting your investment is a primary focus of the solutions we offer for tractor trailers. Our products provide total coverage surveillance for your vehicle. In our cost-effective system you gain extensive security, collision avoidance, a complete view of your vehicle, and can reduce liabilities.

LAW ENFORCEMENT

The products created for law enforcement provide comprehensive solutions for the large amount of difficulties officers face; in a unified system. Not only do our products streamline video recording and downloading, but they minimize the stress of maintaining multiple surveillance systems by integrating in-car systems and body cameras together.

TOWING & RECOVERY

The innovative and heavy-duty solutions created for tow and recovery provide crystal clear views of the entire area surrounding the vehicle and allow you to reap the benefits of safely protecting your investment at a budget-friendly cost. With just one purchase you can enhance driver visibility, have indisputable evidence for court, and optimize operational efficiency.

Key Industry Markets

FIRE / ARFF

The solutions created for fire-related emergency responders provide heightened awareness in their fast-paced lifestyle. Our durable, weather-proof cameras allow the drivers to quickly get to their destination while significantly improving public alertness; keeping an eye on their surroundings in-route to and from the scene has never been easier.

ARMORED VEHICLE

Armored vehicles house extremely valuable cargo which requires top-notch surveillance and security for the assets and driver. With this in mind, Safety Vision has created a comprehensive solution that protects the inventory and driver through continuous recording, GPS tracking, and on-board live look-in.

INMATE TRANSPORT

Protecting the corrections officers is imperative to the solutions created for inmate transportation. Our systems offer complete visual and audio recording in and around the vehicle, geo-fencing, and live look-ins ensuring any conversations or movement is documented.

HEAVY DUTY VEHICLES

Heightened awareness and improved total visibility are vital components when Safety Vision designed our heavy-duty vehicle solutions. Our durable and long-lasting exterior cameras provide complete vehicle coverage for maneuvering the surrounding area, maintain continuous recording for incident reporting, and enhance driver safety through increased awareness.

WASTE /REFUSE

The foundation of waste and refuse vehicle solutions are heightened surveillance and security. Our durable products provide precise and broad views of the area in and around the vehicle and are built to optimize productivity, validate driving routes, and increase driver visibility.

CONCRETE MIXER

The heavy-duty solutions created for concrete trucks enhance driver visibility surrounding the truck; ensuring they off-load the concrete in the appropriate spot and increase the overall safety of everyone involved. The on-board software continuously records entire shifts which reduces room for error and equips you with irrefutable evidence to dispute false claims.

CLIENT SUPPORT

The Client Support team serves as the voice of Safety Vision; ensuring an optimal experience through the entire client relationship. They interact with every department in the company to accommodate your needs and deliver on every inquiry or request. Whether you want to place an order, would like more information on a product, or anything in between; our team is here for you.

TECHNICAL SUPPORT

Our Tech Support team provides training, problem solving, and instruction on all of our solutions and is available to speak with you on the phone (713-929-1164) from the hours of 7AM-6PM CST. The team guarantees to respond within one business day and ensures you are fully equipped to understand and utilize our products to their maximum capabilities. They're dedicated to educating you on our solutions step-by-step and are always available to trouble-shoot any of our solutions.

SALES SUPPORT

Our sales team brings the promise of our solutions to fruition. The Account Executives seek out individuals from various industries to learn what transportation surveillance issues they face and provide feature-rich technology to conquer these difficulties. As experts in the industry, they're prepared to offer up the best solutions that cater to your specific needs.

PRODUCT DEVELOPMENT

Behind our solutions is the Product Development team who consistently enhances our state-of-the-art products. They study the marketplace for the most technologically advanced products. The team communicates with our clients to learn what innovations can allow them to maximize our solution's performance and put these enhancements into place.

Live Streaming and Fleet Tracking

Safety Vision's Foresight PRO video management system (VMS), is the powerful software used for monitoring and reviewing footage from the Observer series of recorders. One of the greatest benefits of this solution is that it continuously records entire vehicle routes. All recorded video and audio are synchronized to GPS coordinates and time stamped, equipping you with undeniable evidence for incident investigation. Using the Observer recorder's panic button, drivers can immediately flag footage, which will be easily identified in the Foresight PRO software to expedite the video retrieval process.

When connected to optional cellular networks, Foresight PRO enables you to live stream from any vehicle and instantly view events as soon as they occur. Drivers can send real-time alerts with our panic button, so you can immediately view an incident live and determine the best course of action. Complete with GPS tracking, users will know exactly where the vehicle is at all times.

Also available as an app, Foresight PRO can be used on any Android or iOS enabled mobile device or tablet.

Features Include:

- **Wireless Downloading**
- **Live Viewing**
- **Vehicle Tracking**
- **Advanced Playback**
- **Custom Triggered Sensors**
- **Real Time Alerts**

DualCam FHD

Day/Night
Performance

High Definition
Performance

Built-In
Microphone

About Us

Your Mobile Surveillance Solution Company

With more than 27 years of experience, Safety Vision, LLC is one of the most recognized partners for advanced mobile video surveillance products. We pride ourselves on comprehensive solutions, future-proofing our products, and serving the needs of our clients. In turn, we have proven results in simplifying surveillance systems and strengthening transportation safety.

Our solutions are geared towards maximizing operational efficiency, increasing driver awareness, unifying surveillance systems, protecting assets/cargo, and most importantly – enhancing safety for drivers and riders. These core values stem from our commitment to problem solve the challenges that come with transportation. We consistently communicate with our clients to learn what their hardships are and develop or enhance our products based on those insights. It is our goal to eliminate or decrease the number of issues our customers face.

Our Industries

Since 1993, we have sold over a billion dollars in mobile surveillance products to a wide variety of industries. These include mass transit, law enforcement, student transportation, commercial vehicles, and more in both public and private sectors. While the purpose for purchasing our products vary between each industry, the decision to choose Safety Vision as your vendor remains the same: we deliver on our promise to accommodate your transportation difficulties with user- and budget-friendly remedies.

Your Visionaries

Headquartered in Houston, Texas, our personnel of over 100 employees is highly driven and knowledgeable. All of our departments are hands-on and passionate about advancing our solutions to ensure we produce top-quality products. Our 40,000 sq. foot building is equipped with an expansive warehouse that houses over \$15 million dollars of inventory. Our Visionaries are dedicated to working hard and find reward in our day-to-day operations. With over a dozen nationwide satellite offices and 6 international locations, we are quickly expanding our business to provide solutions worldwide.

To learn more about our solutions and how we can tailor our products to meet your needs, request more information at www.safetyvision.com or call 800-880-8855 today!

“Safety Vision started when the mobile video camera business was in its infancy. We’ve matured with the industry and today offer the most technologically advanced yet user friendly fleet vehicle camera systems available. For 27 years, we’ve been helping businesses like yours save money and lives. Business doesn’t get more important than that.”

–Bruce Smith, President and CEO
