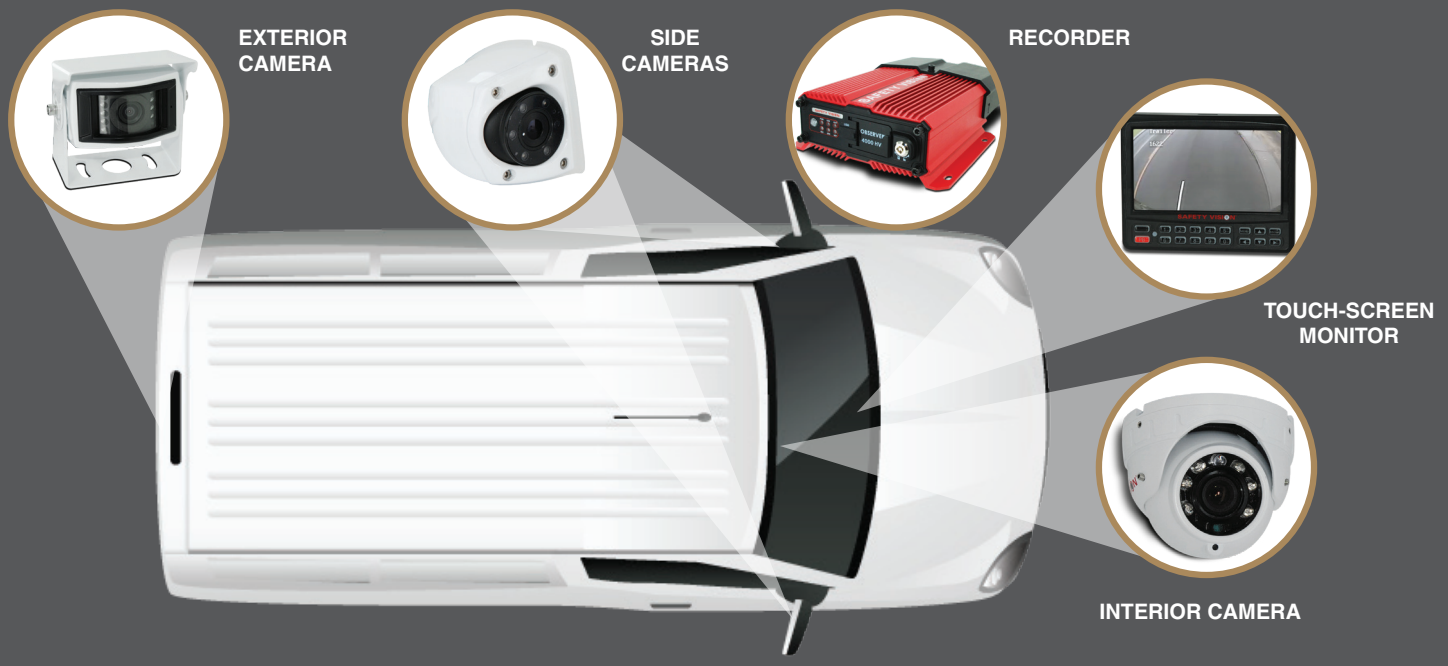
Key Benefits:

- Reduce uses of force
- Protect prisoner rights
- Document chain of events
- Refute false accusations
- Continuous recording
- Reliable equipment
- GPS History Mapping
- Enhance inmate security
- Reduce contraband
- Rugged equipment
- HD resolutions
- Digital evidence management

Prisoner Transport Solution by Safety Vision

Safety Vision offers mobile video surveillance equipment that is the perfect match for prisoner transport and other high-risk transportation vehicles. Our HD cameras automatically record both the driver's cabin and prisoner compartments, all in great clarity. With the best quality footage, you can help better identify details during incident investigations. With Safety Vision's fleet of HD mobile video recorders, you receive the ultimate in budget flexibility with the system reliability you deserve.

In-Car Solution



Invest in an advanced surveillance system to gain complete security in and 360 degrees around the vehicle.

CP4 Quad Monitor

- Live camera views
- 7" touch-screen display
- HVR configuration controls

4000 HVR

- 5 channels supported
- 512GB max storage
- Wireless & cellular capability

4112 HVR

- 12 channels supported
- 2TB max storage
- Wireless & cellular networking

41 AHD Cameras

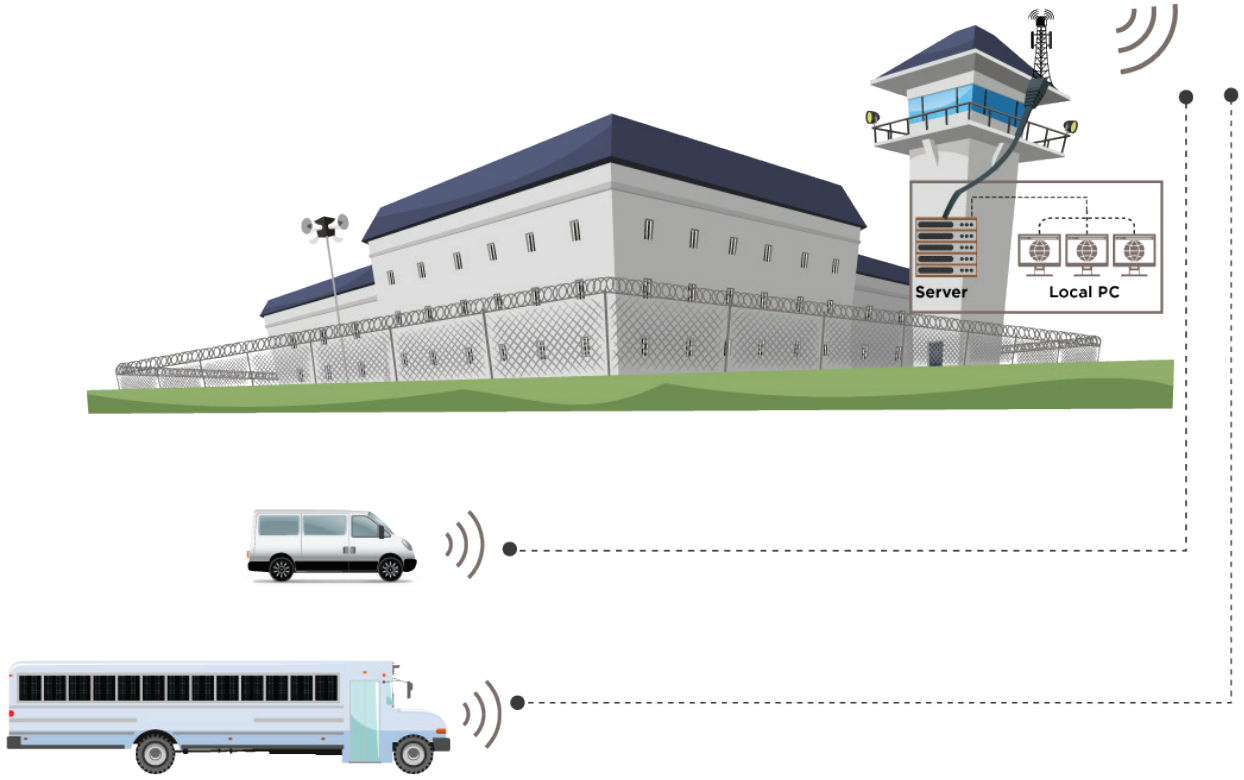
- Interior HD camera
- 1080p HD resolution
- Day / night operation

EXTCAM - Side Cameras

- Exterior side mounted cameras
- Wide 150° viewing angle
- Waterproof housing

630A Camera

- Exterior rear vision camera
- Wide 150° viewing angle
- Heavy-duty all metal construction



Foresight PRO - Wireless Data Management Solution

With the use of optional wireless equipment, video from any and every transit vehicle can be automatically off-loaded for hands-free video downloading to the Foresight PRO software.

- **WIRELESS DOWNLOADING**
  - *Hands-free video downloading, all from the comfort of your desk.*
- **LIVE VIEWING**
  - *Stream live video from any vehicle, anywhere.*
- **VEHICLE TRACKING**
  - *Know exactly where a vehicle is, where it's going and how fast it's traveling.*
- **ADVANCED PLAY BACK**
  - *Playback every camera angle at once and zoom in on important details*
- **CUSTOM ALERTS**
  - *Create and setup e-mail alerts on operator events and critical alarms.*
- **E-MAIL HEALTH REPORTS**
  - *Never worry about the reliability of your surveillance system.*

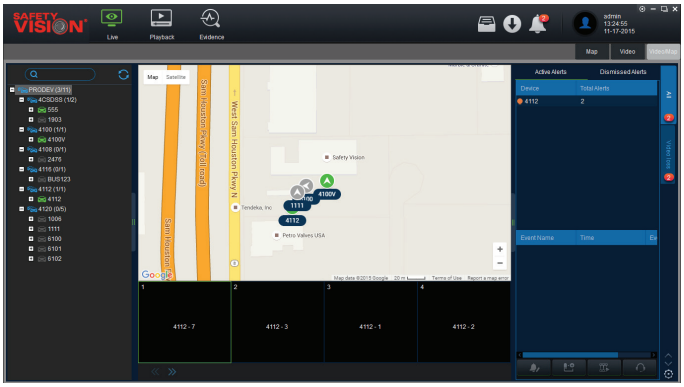
Safety Vision has the solution...

Record Loading and Offloading of Inmates

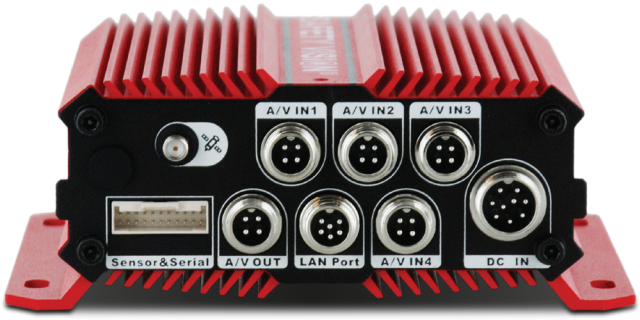
With a combination of both exterior and interior cameras, the process of loading and offloading inmates on the vehicle is completely captured. You have the ability to watch the entire scene as the inmates approach the vehicle, step in and sit inside, from pick-up to drop-off. Equipping your system with the CP4 touch-screen monitor offers drivers with access to any camera view in every cell, providing exceptional situational awareness.

Importance of Recording Guard / Inmate Interactions

Recording all of the activities that occur between officers and inmates is becoming critically important. Recorded video footage is irrefutable evidence that protects your agency from false accusations and other liabilities. Any judicial or disciplinary review is enhanced with a complete visual and audio record of every action taken and every word spoken by the participants.



Observer™ 4000 HVR



Hybrid Video Recording

Solid State Storage

GPS Tracking

Continuous Recording

FEATURES

RECOMMENDED FOR SOLUTIONS UP TO 5 CAMERAS

- **HIGH DEFINITION TECHNOLOGY**
  - *Greater resolution at a lower cost*
- **HYBRID VIDEO RECORDING PERFORMANCE**
  - *Use analog, AHD, and a high definition IP camera all at once*
- **SOLID STATE STORAGE**
  - *Removable dual SD cards for storage with no moving parts - up to 256GB each (512GB total)*
- **BUILT-IN GPS**
  - *Always know the route your driver took for every trip, all synchronized with video*
- **WIRELESS & CELLULAR CAPABILITY**
  - *Hands-free video downloading, live streaming, and system e-mail health reports, all from the comfort of your desk*
- **8 CUSTOMIZABLE EVENT MARKING SENSORS**
  - *Quickly and efficiently navigate video in playback through synchronized recorded vehicle metadata such as turn signals, brakes, hazard lights, etc.*
- **SOPHISTICATED & FEATURE-RICH SOFTWARE**
  - *All the necessary playback and investigating tools you need, right at your fingertips*
- **CONTINUOUS RECORDING**
  - *Recording HD video from the moment the vehicle turns on and leaves for its route, to when the vehicle returns at the end of each shift*

Observer™ 4112 HVR

Hybrid Video Recording

GPS Tracking

Triggered Events

Wireless Downloading

FEATURES

RECOMMENDED FOR SOLUTIONS UP TO 12 CAMERAS

- **HIGH DEFINITION TECHNOLOGY**
  - Greater resolution at a lower cost
- **HYBRID VIDEO RECORDING PERFORMANCE**
  - Combine and use analog, AHD, and high definition IP cameras all at once
- **HIGH CAPACITY STORAGE**
  - Up to 2TB of ample and secure storage for recording HD video
- **SOPHISTICATED & FEATURE-RICH SOFTWARE**
  - All the necessary playback and investigating tools you need, right at your fingertips
- **BUILT-IN GPS**
  - Always know the route your driver took for every trip, all synchronized with video
- **8 CUSTOMIZABLE EVENT MARKING SENSORS**
  - Quickly and efficiently navigate video in playback through synchronized recorded vehicle metadata such as turn signals, brakes, hazard lights, etc.
- **WIRELESS & CELLULAR NETWORKING**
  - Hands-free video downloading, live streaming, and system e-mail health reports, all from the comfort of your desk
- **CONTINUOUS RECORDING**
  - Recording HD video from the moment the vehicle turns on and leaves for its route, to when the vehicle returns at the end of each shift

AHD Cameras

Integrated Audio

Analog High Definition (AHD)

Automatic Color Temperature

Day/Night Time Performance

FEATURES

RECOMMENDED FOR FORWARD AND CABIN CAMERA SOLUTIONS

- **INTEGRATED AUDIO**
  - *Built-in microphone for clear audio recording synchronized with video*
- **AHD (ANALOG HIGH DEFINITION)**
  - *Greater resolution at a lower cost*
- **AUTOMATIC COLOR TEMPERATURE CORRECTION**
  - *White balance adjustment to provide the optimal picture in a variety of changing light situations*
- **DAY/NIGHT TIME PERFORMANCE**
  - *Automatic IRs for greater visibility in low-light conditions*
- **MOBILE-RATED ENCLOSURE**
  - *Tamper-proof and vandal-resistant housing*
- **THREADED & COLLARD CONNECTORS**
  - *Secured locked and water resistant connection*

45 Series IP Camera

High Definition Recording

Day/Night Time Performance

Integrated Audio

Vibration-Resistant & Vandal Proof

FEATURES

RECOMMENDED FOR INTERIOR AND WINDSHIELD CAMERA PLACEMENTS

- **FULL HIGH DEFINITION**
  - *1080p resolution provides more detail for an up-close look at an incident on the bus*
- **ADJUSTABLE VIEWING ANGLE**
  - *Flexible installations and precision viewing for mounting virtually anywhere*
- **OPTIMIZED VIBRATION-RESISTANT & VANDAL PROOF DESIGN**
  - *For tough and lasting performance in any school bus environment*
- **DUAL STREAM CAPABILITY**
  - *Main stream for recording high-definition video, sub stream for remote video monitoring*
- **SUPERIOR DAY/ NIGHT PERFORMANCE**
  - *Night visibility range of up to 65'*
- **INTEGRATED AUDIO**
  - *Built-in microphone for clear audio recording synchronized with video*

SV-EXTCAM

Wide Angle | Day/Night Performance | Built-In Microphone | Threaded Connectors

FEATURES

RECOMMENDED FOR SIDE-EXTERIOR CAMERA PLACEMENTS

- **ULTRA WIDE ANGLE**
  - *150° field of view for capturing a complete view of vehicle side-exteriors*
- **HI-RES IMAGES**
  - *Produces high-quality views of exterior vehicle surroundings*
- **BUILT-IN MICROPHONE**
  - *So people near the vehicle can communicate directly with you*
- **DAY/NIGHT TIME PERFORMANCE**
  - *Automatic IRs for greater visibility in low-light conditions*
- **EXTREMELY RUGGED HOUSING**
  - *Shock and vibration resistant with wide-ranging operating temperatures*
- **THREADED CONNECTORS**
  - *Secured locked and water resistant connection*

630A Camera

Wide Angle

Day/Night Performance

Built-In Microphone

Threaded Connectors

FEATURES

RECOMMENDED FOR EXTERIOR CAMERA PLACEMENTS AND REAR-VIEW CAMERA PLACEMENT

- **ULTRA WIDE ANGLE**
  - *150° field of view captures a view three traffic lanes wide*
- **ALL-METAL CONSTRUCTION**
  - *Built to withstand harsh mobile environments*
- **BUILT-IN MICROPHONE**
  - *So people near the vehicle can communicate directly with you*
- **DAY/NIGHT TIME PERFORMANCE**
  - *Automatic IRs for greater visibility in low-light conditions*
- **MULTIPLE MOUNTING POSITIONS**
  - *Normal & mirror imaging for use as a rear view, forward facing or other views*
- **THREADED CONNECTORS**
  - *Secured locked and water resistant connection*

CP4 Quad Monitor

Touch Screen Monitor

Menu Control

Built-In Speaker

Integrated Panic Button

FEATURES

RECOMMENDED MONITOR FOR USE WITH OBSERVER RECORDERS

- **TOUCH SCREEN MONITOR**
  - 7" screen displays up to 9 cameras with multiple split screen modes. Single bottom press to view any camera.
- **BUILT-IN SPEAKER**
  - Permits the driver to both see and hear activity within the camera's range
- **PLUG AND PLAY OPERATION**
  - Automatically powered by recorder
- **INTEGRATED PANIC BUTTON**
  - Allows driver to mark critical events during recording
- **DVR MENU CONTROLS**
  - Authorized users can sign-in and access configuration menus, playback video, view event logs and more
- **AUTOMATIC SWITCHABLE VIEWS**
  - Display camera views on screen automatically with reverse gear and/or turn signals

Prima Facie XL

High Definition Quality

Long-Lasting Battery Life

Two-Way Radio Integration

Night Visibility

FEATURES:

RECOMMENDED STAND-ALONE BODY CAMERA SOLUTION

- **HIGH DEFINITION RECORDING**
  - Choose from 3 different resolutions: 1080p, 720p, and 480p
- **LONG-LASTING BATTERY LIFE**
  - Battery can last an entire shift with over 12 hours of continuous operation on a single charge
- **64GB OF INTERNAL STORAGE**
  - Non-removable SD card for secure memory protection
- **IMMEDIATE PLAYBACK IN THE FIELD**
  - Integrated 2-inch, rear-facing color LCD screen
- **TWO-WAY RADIO INTEGRATION**
  - Reduces the overall equipment officers are required to carry
- **NIGHT VISIBILITY**
  - 2 Built-in IR illuminators automatically activate any time a low light condition is detected

INCLUDES:

Single base docking station

Epaulette clip

360° rotatable clothing clip

Equip your video recording system with a variety of beneficial accessories to perfectly assemble a custom tailored solution.

Panic / Event Button

Compatible with: All Observer series of recorders

- Mark critical events
- Led system health status display
- Convenient driver access
- Recording status display

UPS Back-up Battery

Compatible with: All Observer series of recorders

- Allows recorder to gracefully shutdown, even if knife switches fully disconnect the vehicle's battery
- Lasts for approximately. 40 minutes when vehicle loses power
- Built-in fuse ensures reliability
- Easy flat-mount installation

Lock Box

Compatible with: Observer 4100, Observer 4112

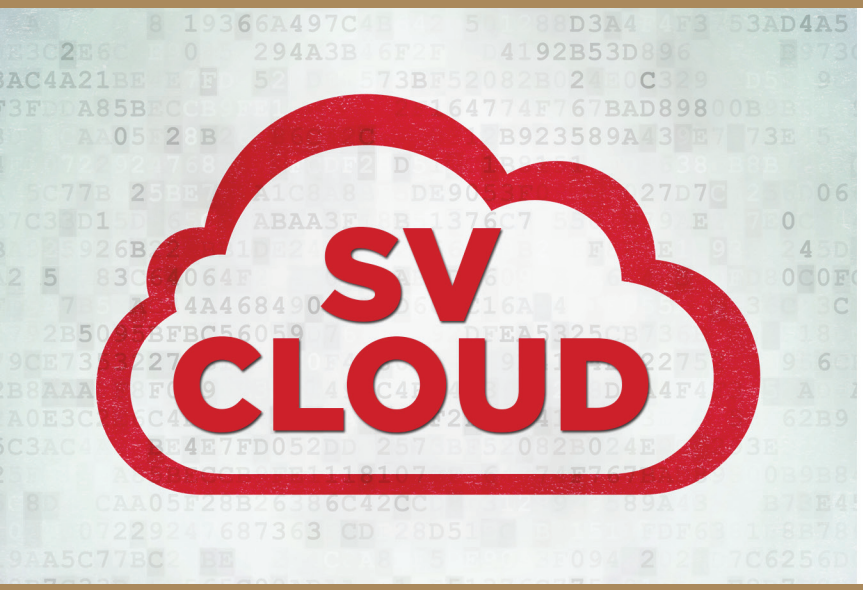
- • 16 gauge tamper resistant steel
- • Cooling fan to keep air running through the enclosure
- • Key locked hinged front door
- • Interlocking top for added security; top removes easily for servicing

Accelerometer

Compatible with: Observer 4000 HVR

- 6-axis inertia sensor for comprehensive analysis
- Enables recording of g-force data to create real time alerts and events
- Monitor vehicle performance and driver behavior
- High sensitivity for rapid response times and detailed data

SAFETY VISION CLOUD SOLUTION



SV CLOUD: Safety Vision's cloud solution is designed to simplify all processes related to the eployment, use, and administration of the cloud solution. We provide a highly available cloud solution that includes strong security and backups with no administrative burden on the customer. Safety Vision's self-provisioning hardware and intuitive user interface are designed for ease of use without specialized training or dedicated staff.

CIA TRIAD:

CONFIDENTIALITY - the state of keeping or being kept secret or private. How we accomplish/ incorporate Confidentiality: encrypting data in transit, encrypting data at rest, implementing security at each level.

INTEGRITY - the assurance of the accuracy and consistency of data over its entire life-cycle. How we accomplish/incorporate Integrity: enabling logging on all of our services, creating individual usernames, and regularly conducting audits.

AVAILABILITY - the ability to ensure that data continues to be available at a required level of performance in situations ranging from normal to disastrous. In the event that video is needed to be viewed we guarantee it to be available 99.99% of the time outside of regularly scheduled maintenance windows.

How we accomplish/incorporate Availability: by ensuring that our cloud environmentis properly protected from any attack that may bog down the cloud and or make the services/video unavailable.

SAFETY VISION CLOUD SOLUTION

C CONFIDENTIALITY

I INTEGRITY

A AVAILABILITY

SECURITY IN MIND: We take into account that your data is your livelihood and need be protected. From the moment it is created, in transit, and then stored we have the CIA triad in mind.

WHY USE SV CLOUD SOLUTION:

REDUCE IT COSTS - No more paying to upgrade servers or dealing with unnecessary patching

SCALABILITY - As your fleet grows or shrinks, we can appropriately scale your environment instead of you having to purchase costly upgrades and use up the time of your own local resources

BUSINESS CONTINUITY - We protect your content and offer backups of your current data in order to help you plan for disaster recovery for those instancesof natural disaster or power failure so that your data is available to be accessed.

COLLABORATIVE EFFICIENCY - Our solution gives your business the ability to communicate and share more easily outside of the traditional methods.

DATA OWNERSHIP: As a customer of Safety Vision you have access to your data in the specified times of your contract. As you are the originator of the data you are the owner of it and the one to control the content. Your customer data is accessible via the Apps and Hosted Software.We maintain proper records of your deployment from start to finish Rest assure that your data is restricted to your company.
Safety Vision does not access or use your produced video content for any purposes without your consent, we also will not replicate your content. We will only disclose customer content when prompted by the customer or we're required to do so in order to comply with the law, or with a valid and binding order of a governmental or regulatory body. Safety Vision complies with ISO 27018, a code of practice that focuses on protection of personal data in the cloud.

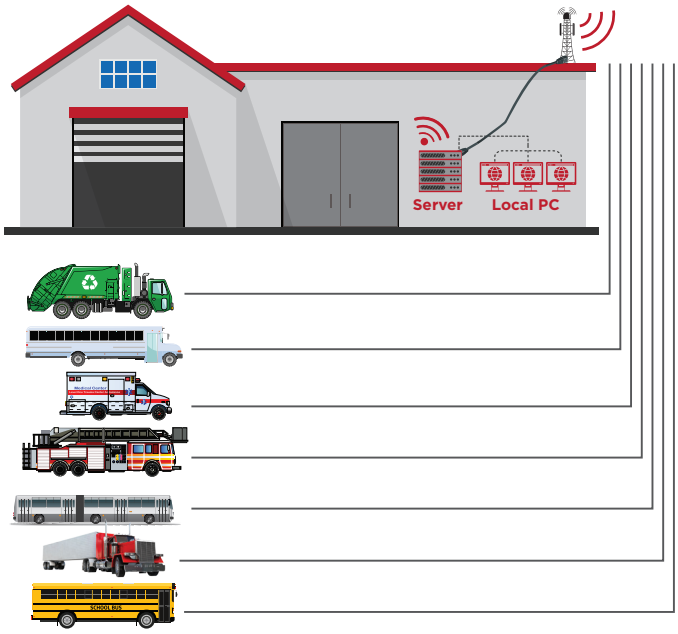
CLOUD SOLUTIONS OFFERED

TOTAL SOLUTION - Managed Cloud Environment and Video Management Software

HYBRID SOLUTION - You have your own server you'd like to utilize and we will backup your content to the Cloud.



SAFETY VISION: ABOUT US

Your Mobile Surveillance Company

Safety Vision, LLC is among the most recognized vendors of mobile video surveillance products in North America. A pioneer in the mobile surveillance industry, Safety Vision has been in business for over 25 years with the goal of enhancing vehicular safety through the employment of comprehensive video surveillance solutions.

Safety Vision designs and supplies products that help improve visibility to protect assets, reduce liability, maximize operational efficiency and, most importantly, enhance safety. Apart from Safety Vision's core products—rugged hardware and intuitive software—the company has made it a point to respond to its customers' needs. In accordance with the demands of the marketplace, Safety Vision continues to incorporate innovative features such as wireless downloading, real-time remote viewing, GPS mapping, uninterrupted power supplies, and hybrid recording technology to further enhance its safety package. In addition, many customers look to us for customized solutions that integrate these and other mobile systems and technologies.

Safety Vision's expertise and knowledge are grounded in its long history which has provided a thorough understanding of the mobile applications of video technology. Safety Vision prides itself on its forward-thinking ideology, comprehensive solutions, extensive client list, and proven results.

Five Key Industries

Safety Vision caters to five key industries—trucks (on and off highway), law enforcement, mass transit, pupil transportation, and first responders. Customers range from the public to the private sectors and the purposes of products range from increasing public safety to decreasing private liability. Since its inception, Safety Vision has sold over a billion dollars of mobile safety products. Those products have been used by agencies, companies, and organizations to provide elements of mobile safety, which in turn save them time, resources, and money.

Location and Personnel

Safety Vision is headquartered in Houston, Texas where its wholly-owned 40,000 sq. foot building resides. Our knowledgeable sales, marketing, client support, and administrative teams maintain close customer contact while the product development, service, and warehouse teams maintain operations. An on-site, four-tier 35,000 sq. foot warehouse stores over twelve million dollars of inventory. Safety Vision has 100+ employees. Satellite offices are strategically positioned in over a dozen US states while international service is provided Safety Vision Latin America as they support fleets in Mexico, Panama, Nicaragua, and other territories.

To learn more about mobile video surveillance or how we can tailor a Safety Vision solution to suit your unique budgetary and operational needs, request more information at www.safetyvision.com or call 800-880-8855 today!

"Safety Vision started when the mobile video camera business was in its infancy. We've matured with the industry and today offer the most technologically advanced yet user friendly fleet vehicle camera systems available. For 25 years, we've been helping businesses like yours save money and lives. Business doesn't get more important than that."

–Bruce Smith, President and CEO
Safety Vision, Texas
